RECCENOTES

TOOLKIT

Visual guide to the complete workflow

From the road to the Roadbook

User Manual

MAN-0036

Three applications. One journey.

Each application has its own responsibility, from the road to the Roadbook.

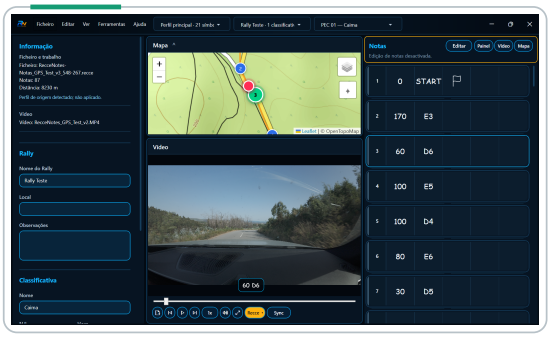

RecceNotes

Collect and review on the road

RecceConnect

Connect the team and prepare transfers

RecceEditor

Review in Windows and prepare the Roadbook

A Start in ReccenNotes

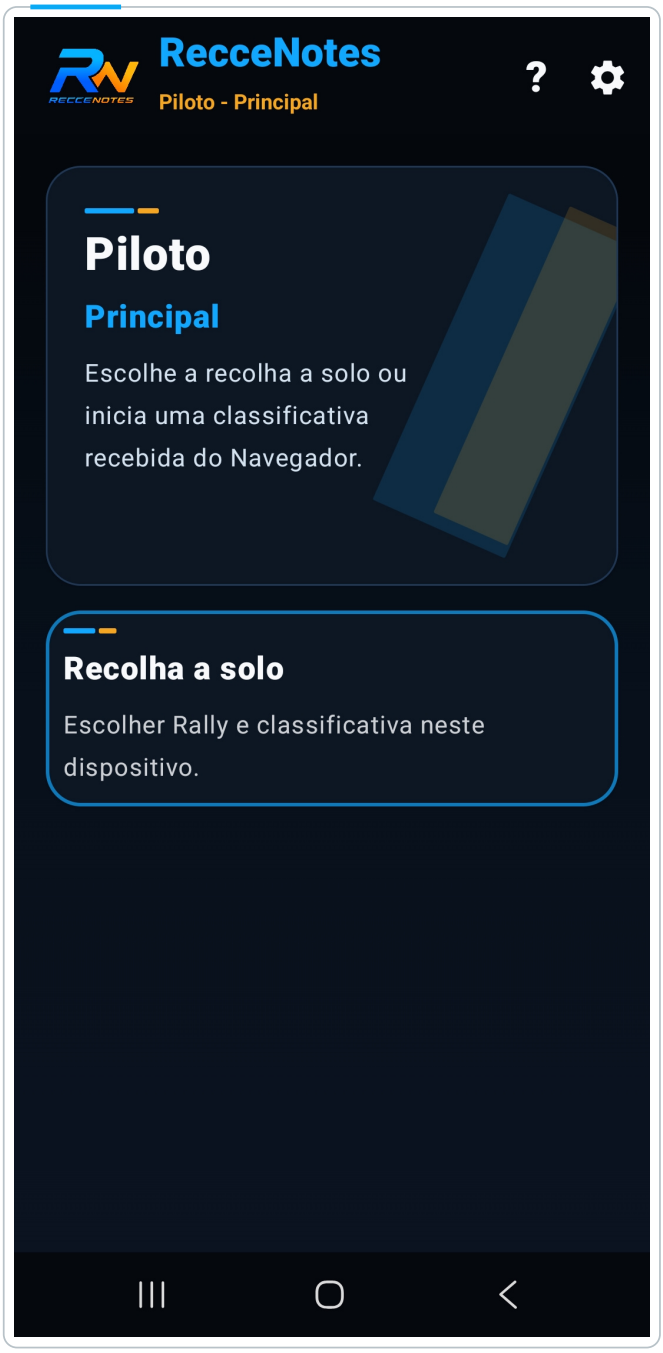

Choose Driver or Co-driver to begin working on the road.

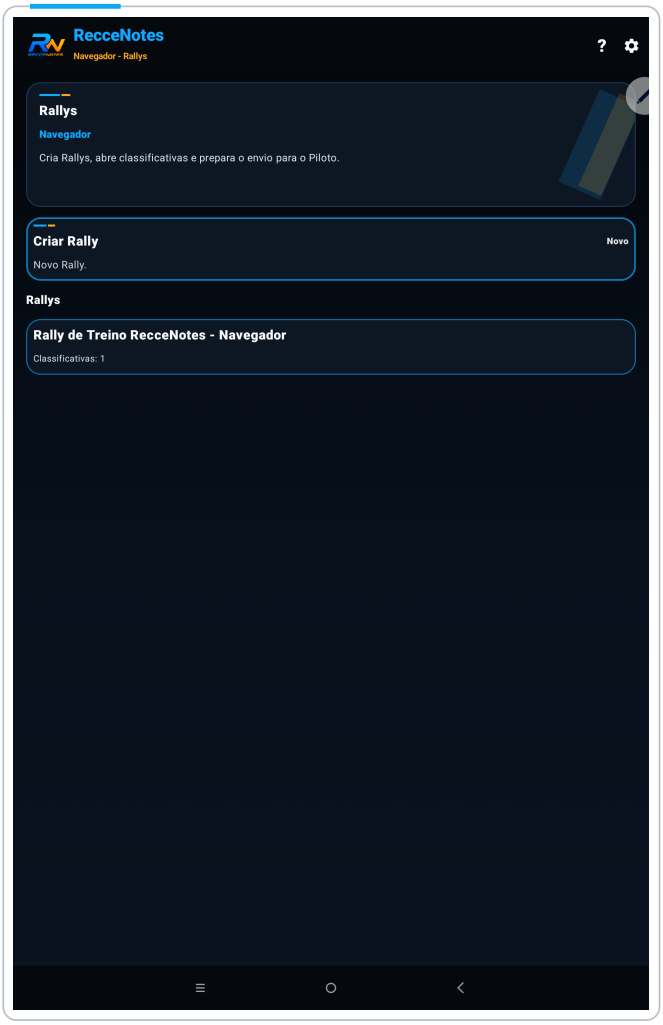

Real home screen

Driver and Co-driver

The Driver collects. The Co-driver prepares and reviews on the Tablet.

Driver on Phone

Co-driver on Tablet

Prepare the Rally

Select an existing Rally or create a new one before the run.

- Choose or create

- Complete the details

Prepare the special stage

Create the stage and confirm the available information.

- Stage list

- Special-stage details

Open the run

Confirm the special stage and open the Collection screen.

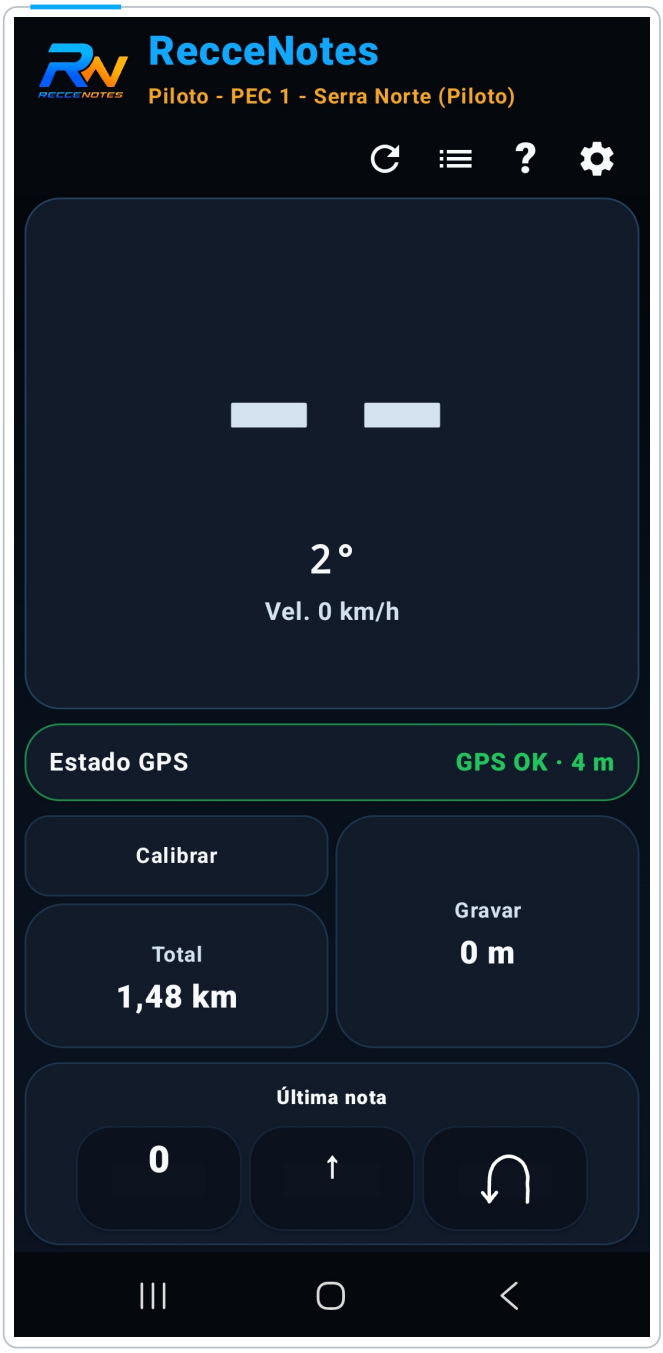

Before the start

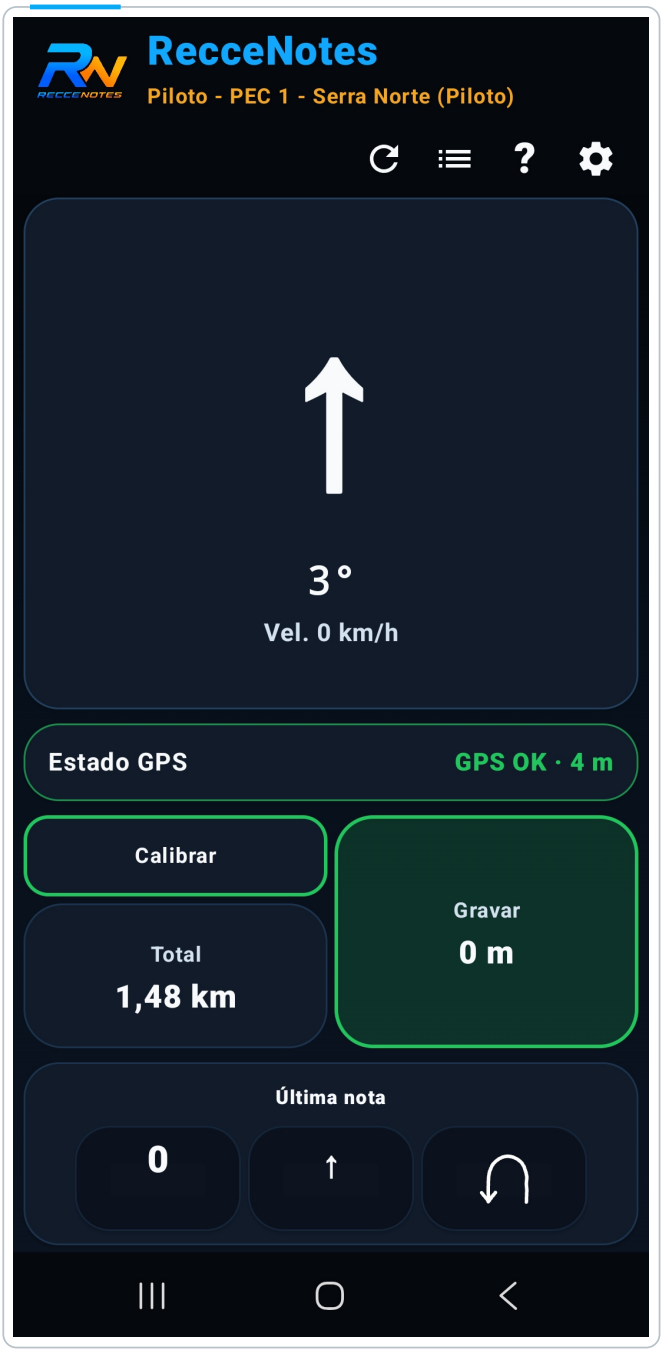

Collection ready

Collect on the move

Calibrate, monitor GPS and record the distance.

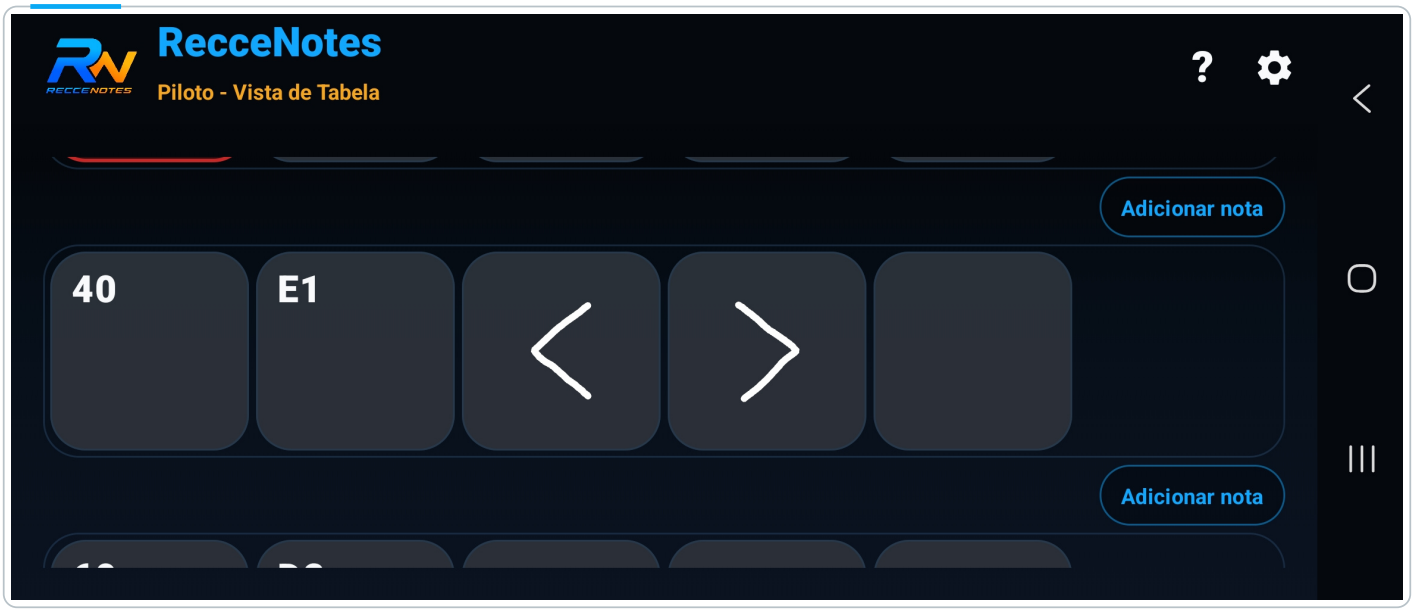

Before recording

Recording active

Review in the Table

The landscape view lets you quickly review the special-stage notes.

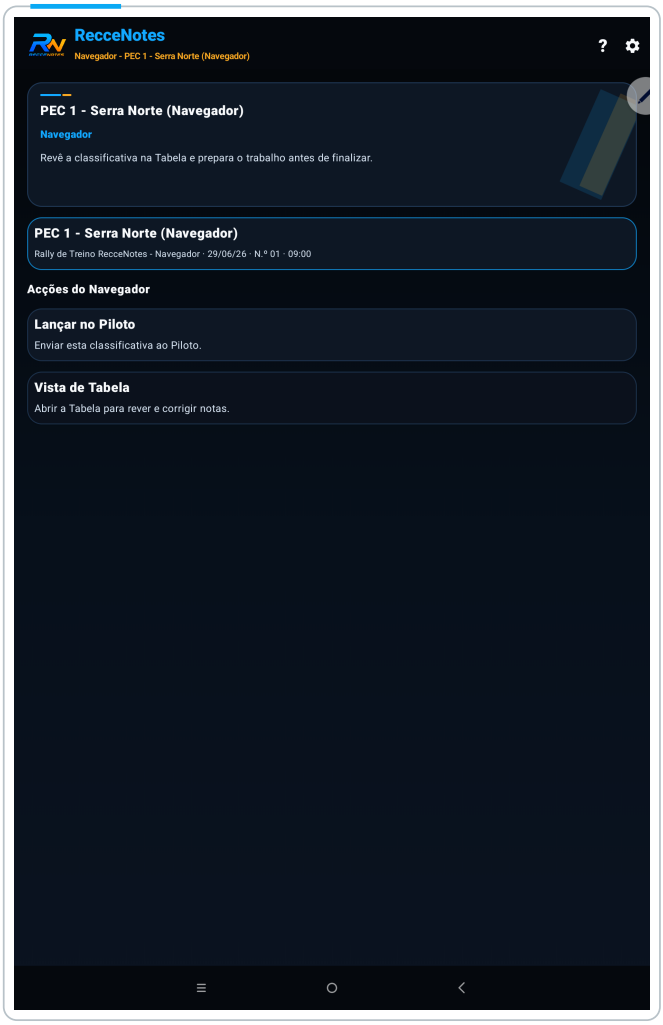

- Confirm the complete sequence before continuing

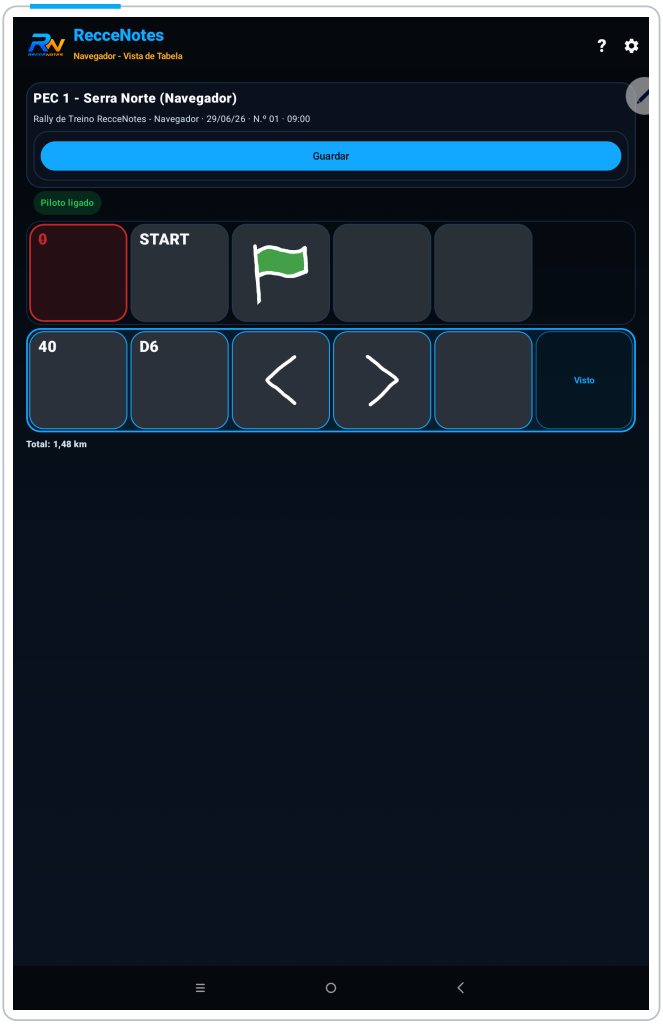

Use this view to confirm the sequence before continuing

Co-driver: send and review

On the Tablet, open the special stage and review the sequence.

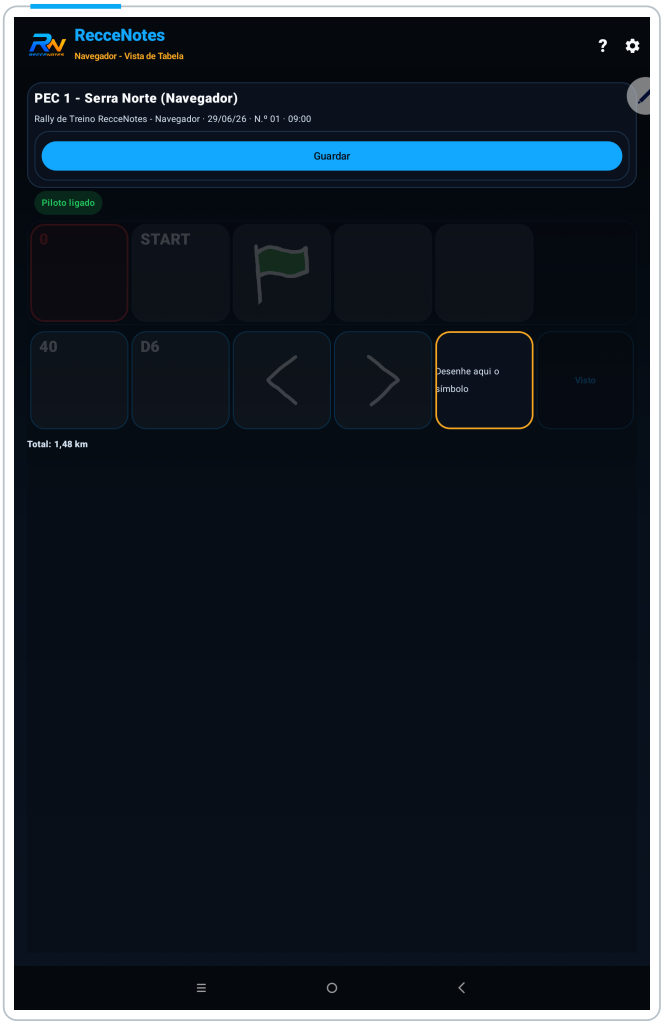

- Co-driver actions

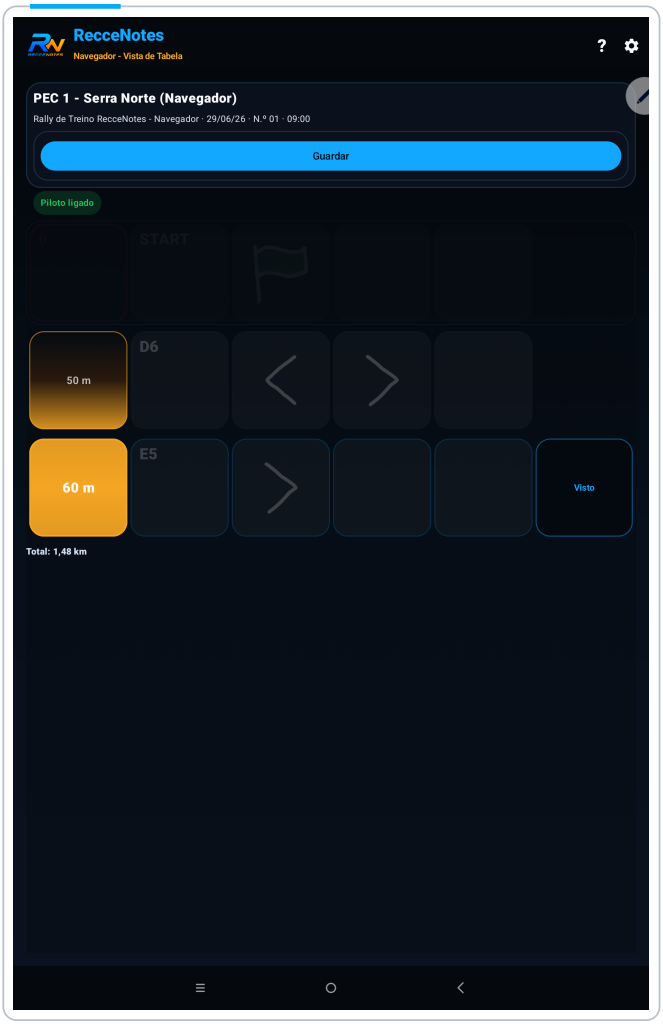

- Complete Table

Edit the distance

Select the cell and apply the correct distance.

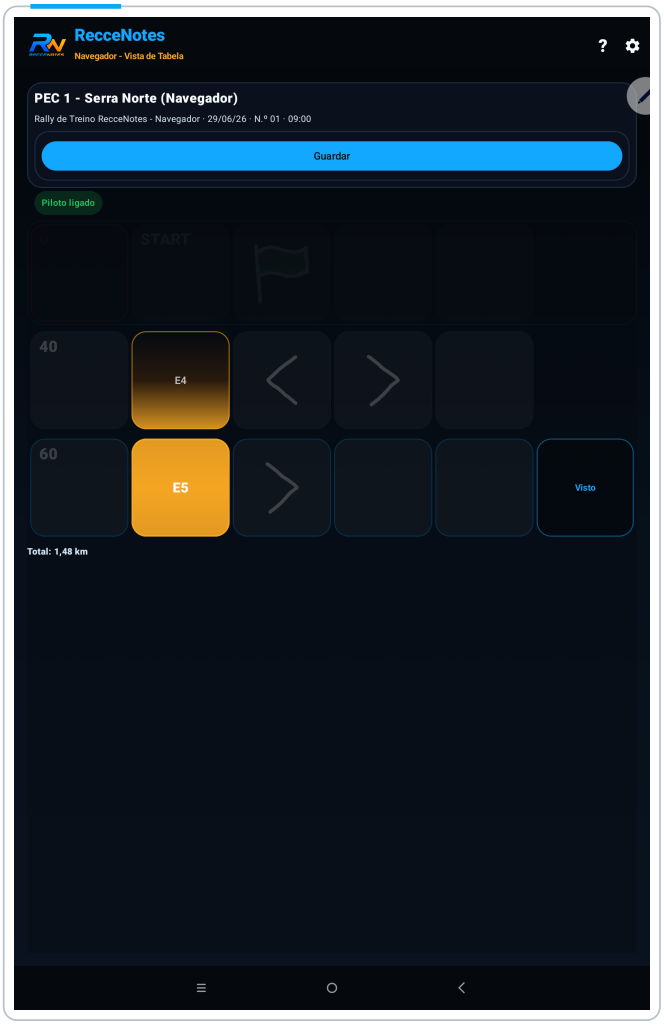

- Select

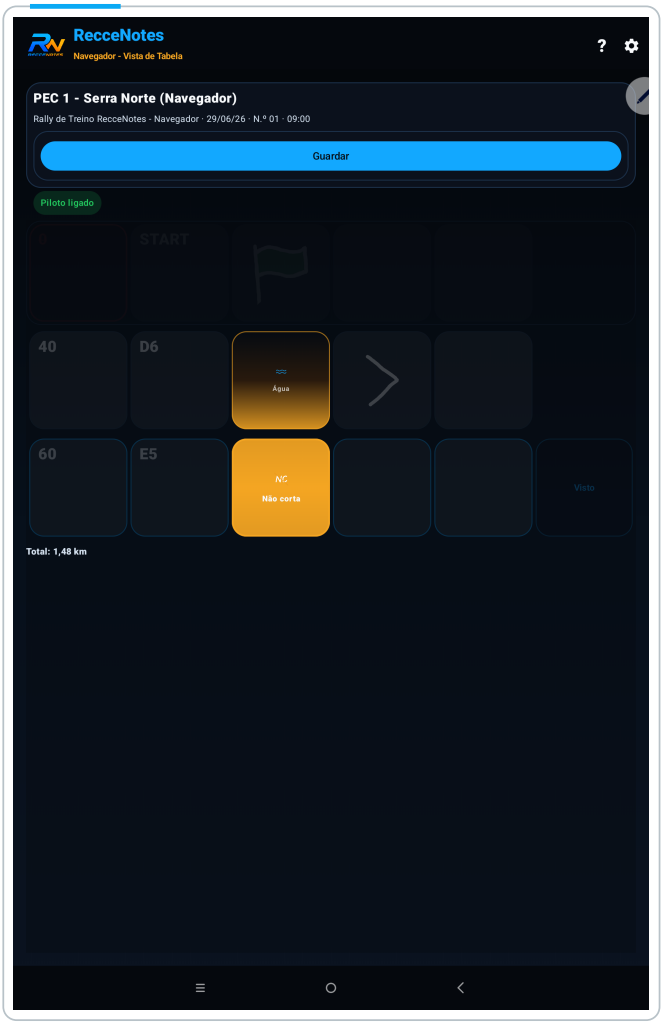

- Adjust

Edit codes and notes

Choose codes or symbols and add the required note.

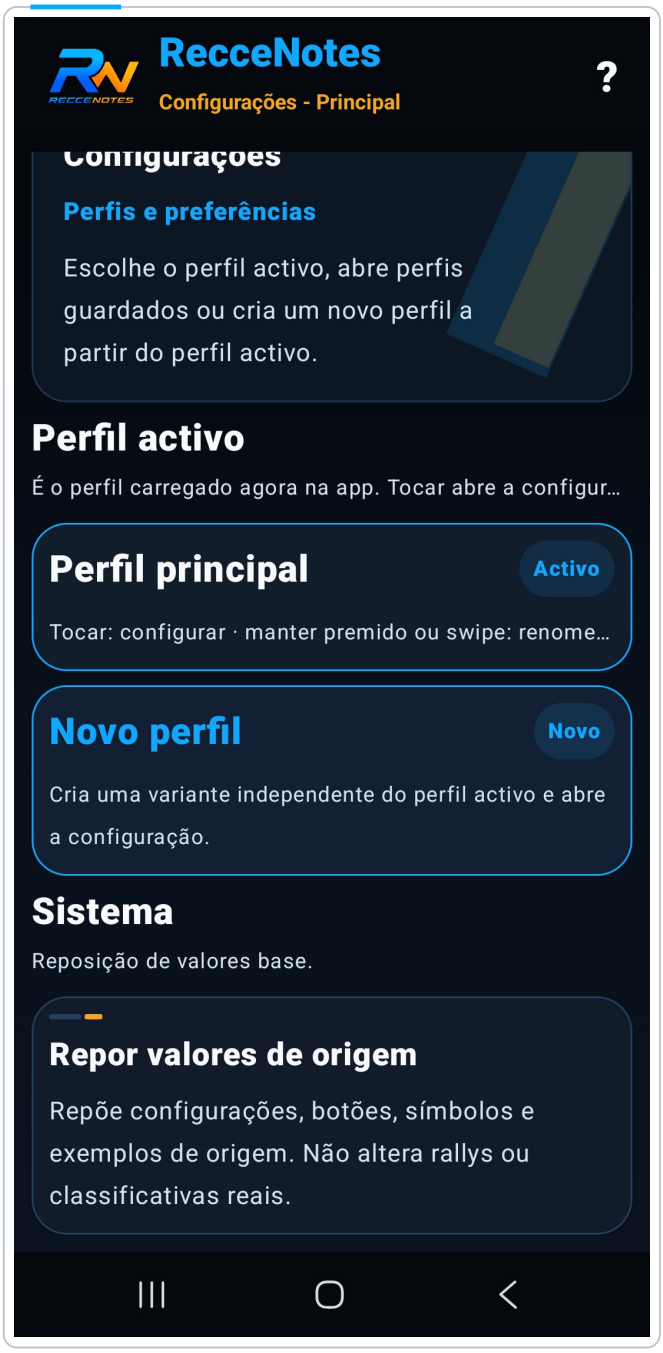

- Choose code

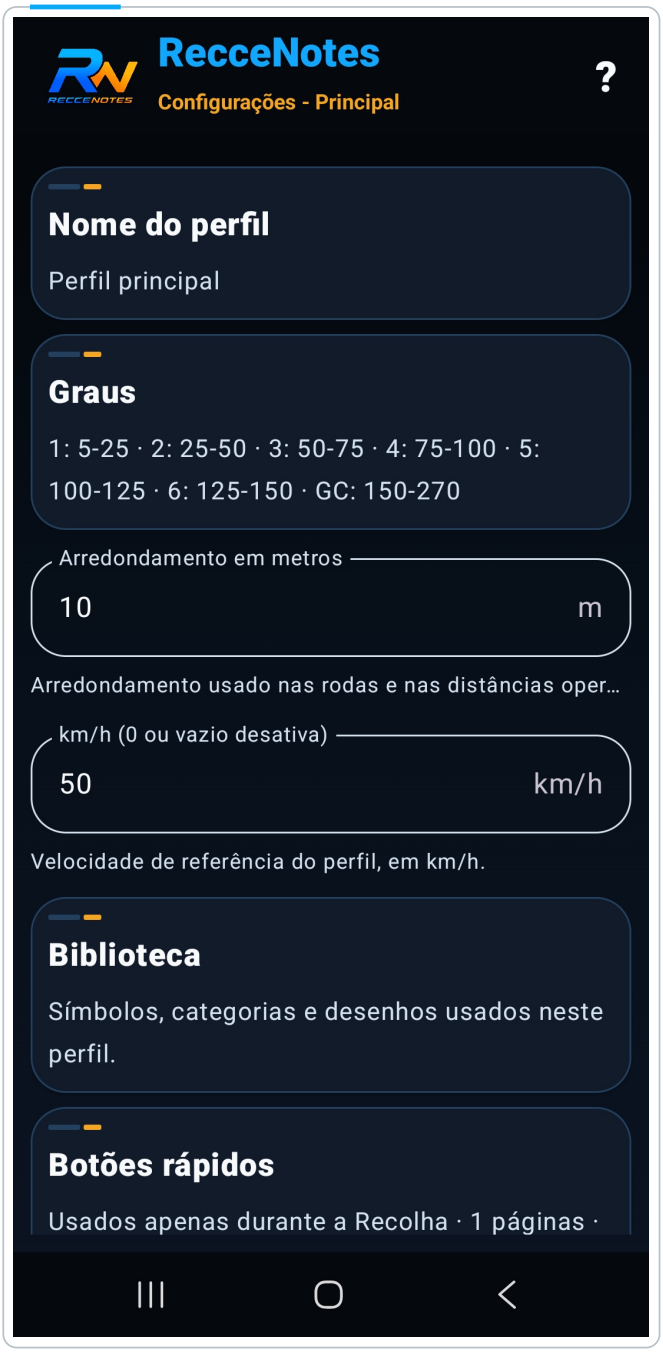

- Add note

Work profiles

Each profile brings together preferences, grades, the library and quick buttons.

Profile management

Profile contents

Define the grades

Associate the identifiers with the grade ranges.

- Profile ranges

Symbol library

Review the available symbols before preparing the quick buttons.

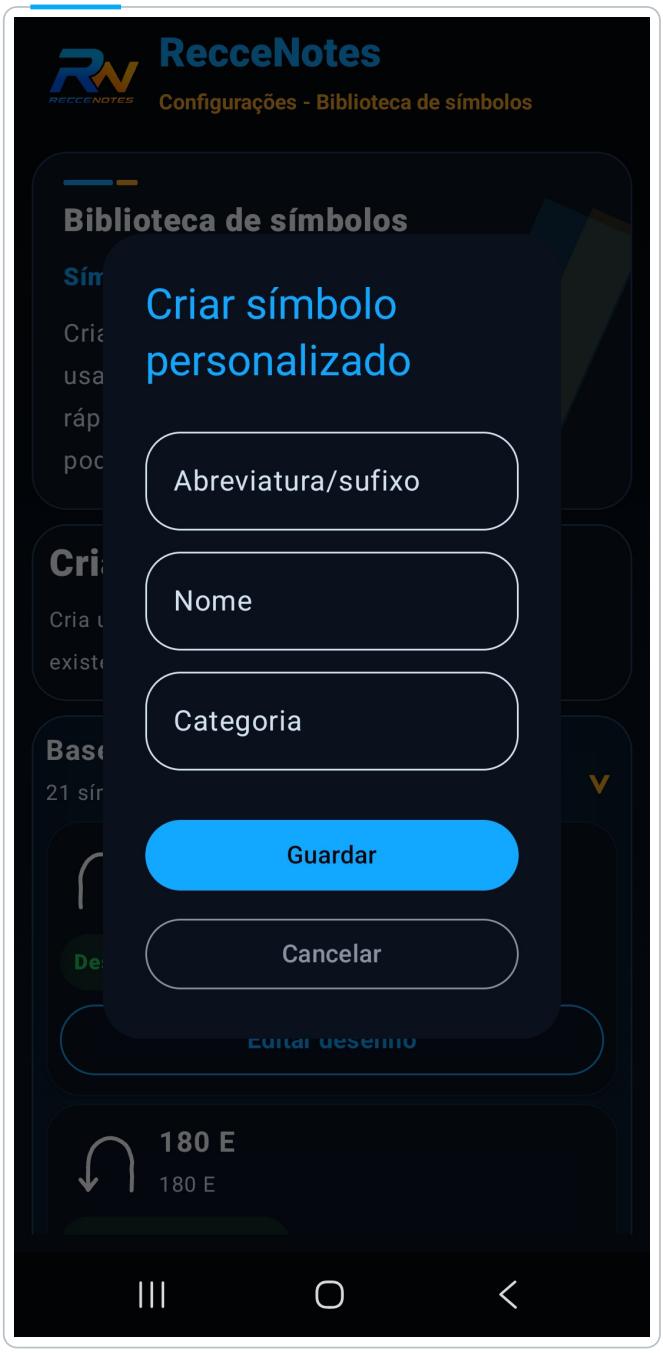

Library entry

Available symbols

Create a symbol

Define its identity and draw the custom symbol.

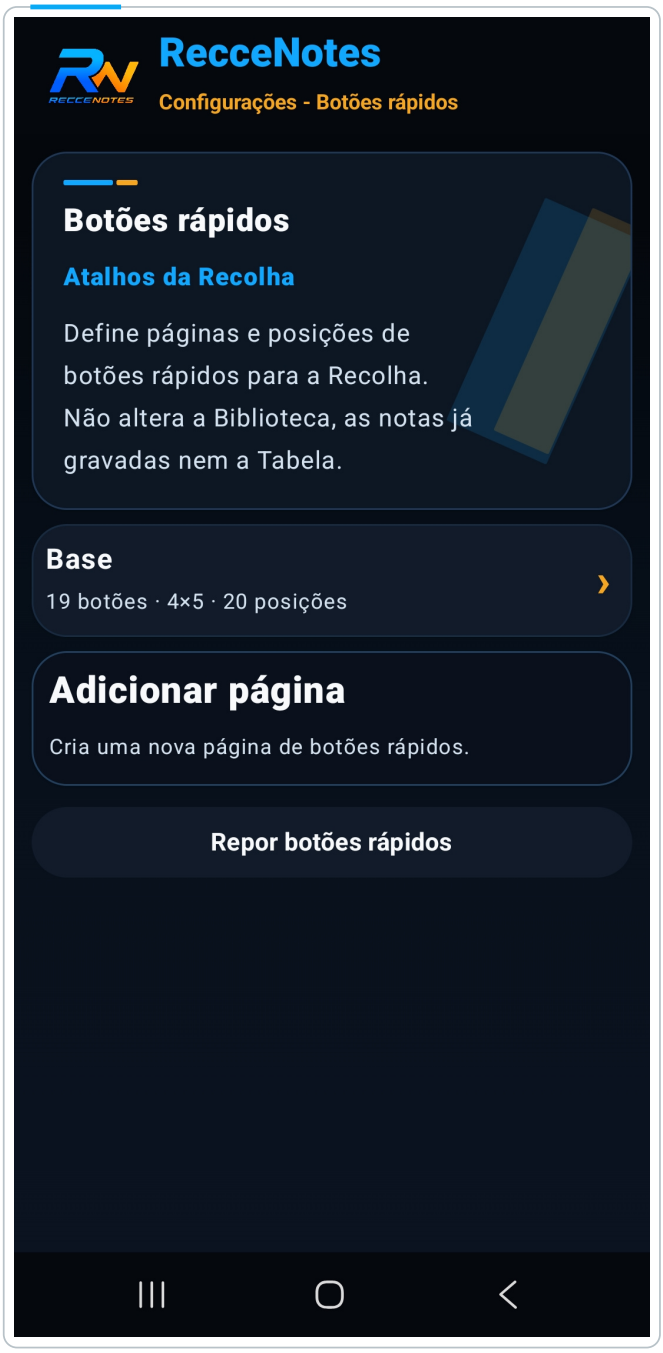

Identity

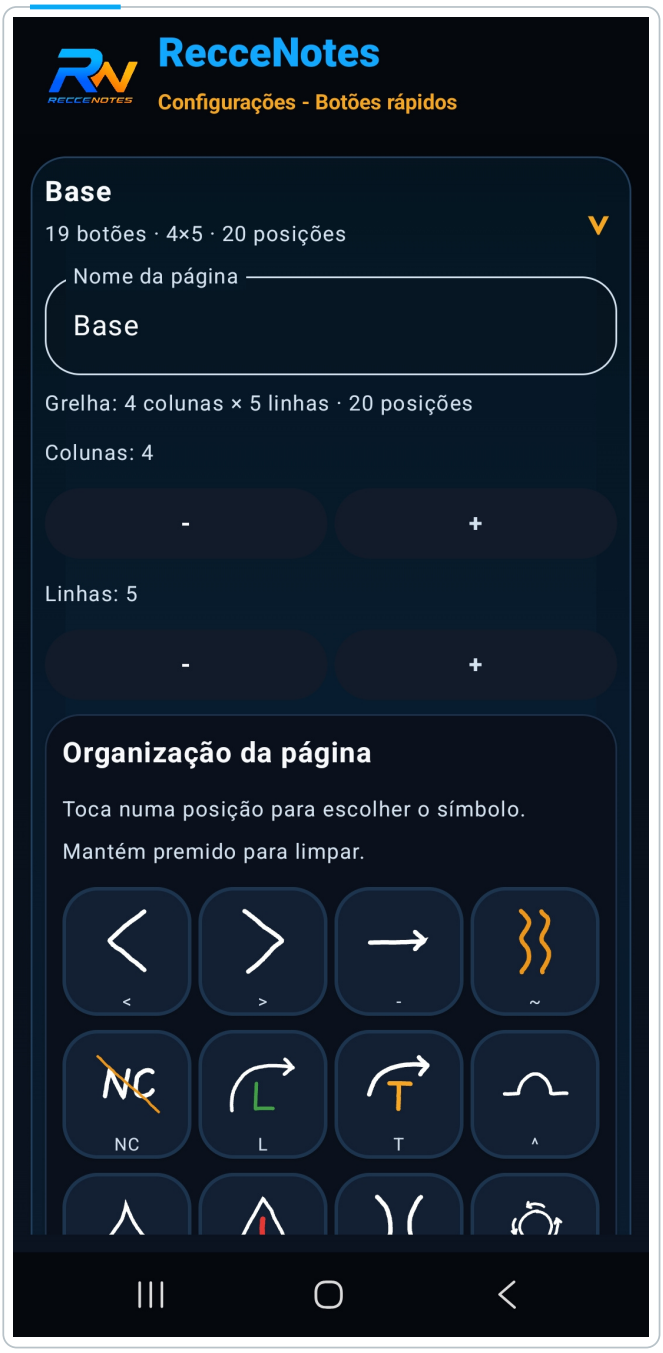

Drawing

Organise quick buttons

Arrange the symbols in the grid used during Collection.

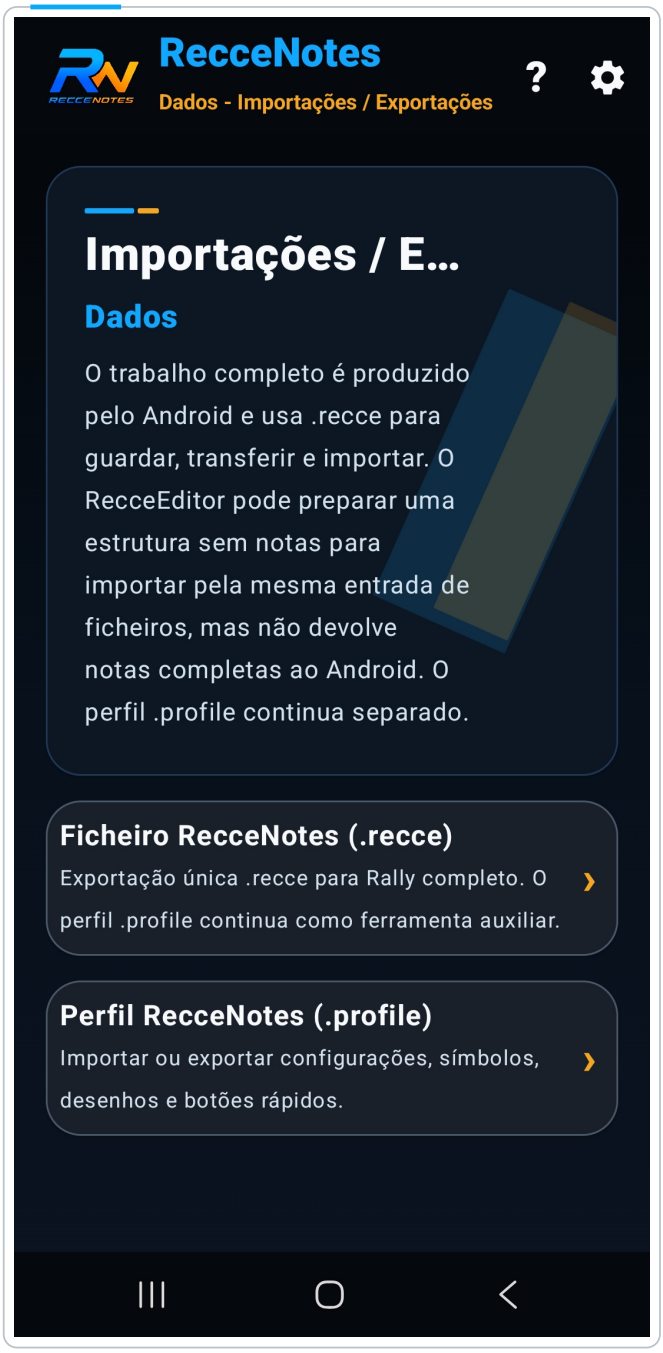

Button pages

Usage grid

Save the work

The .recce file carries the complete Rally.

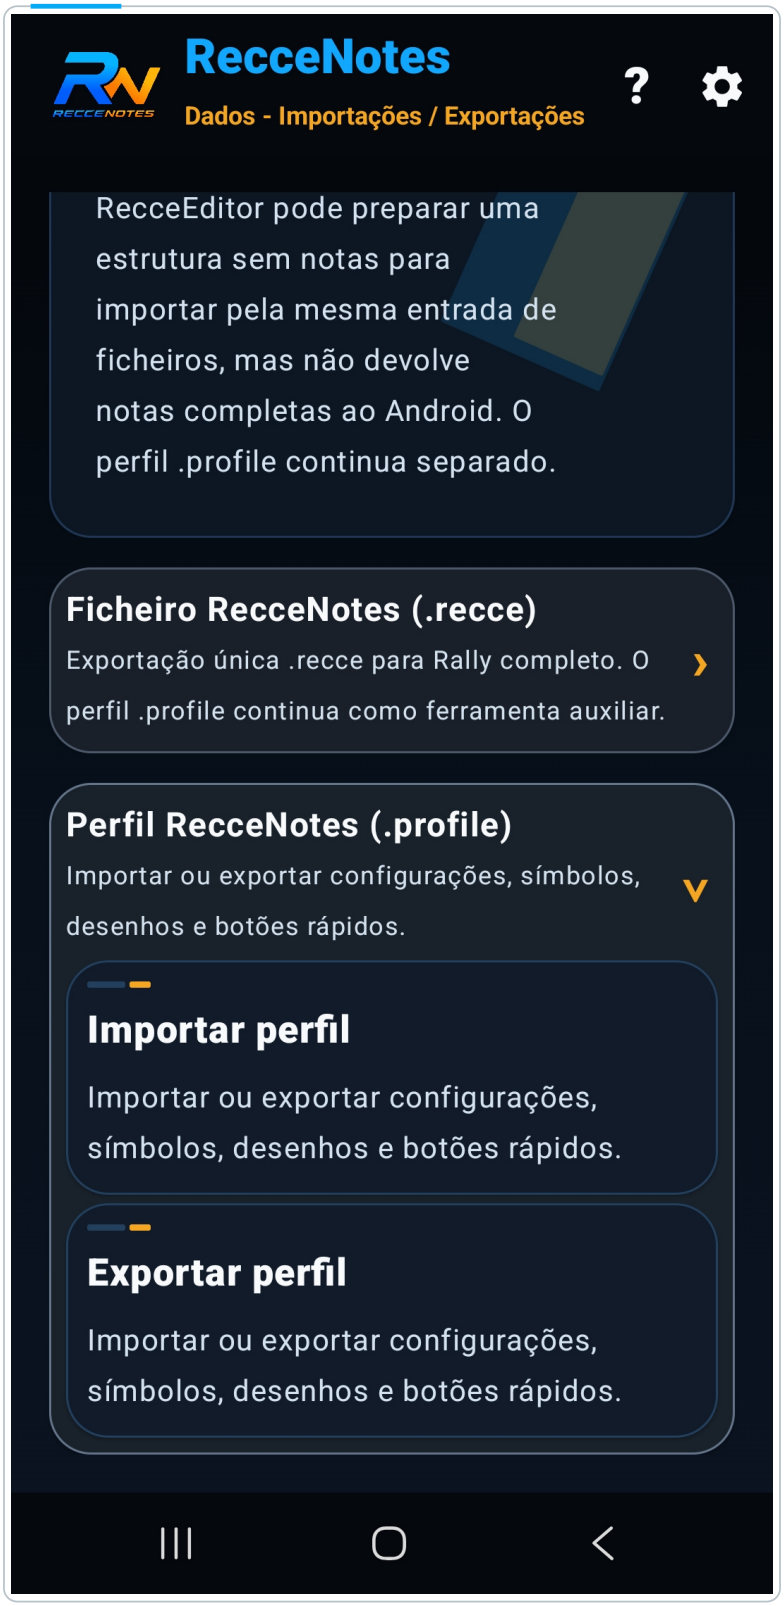

Data area

.recce file

Transfer the profile

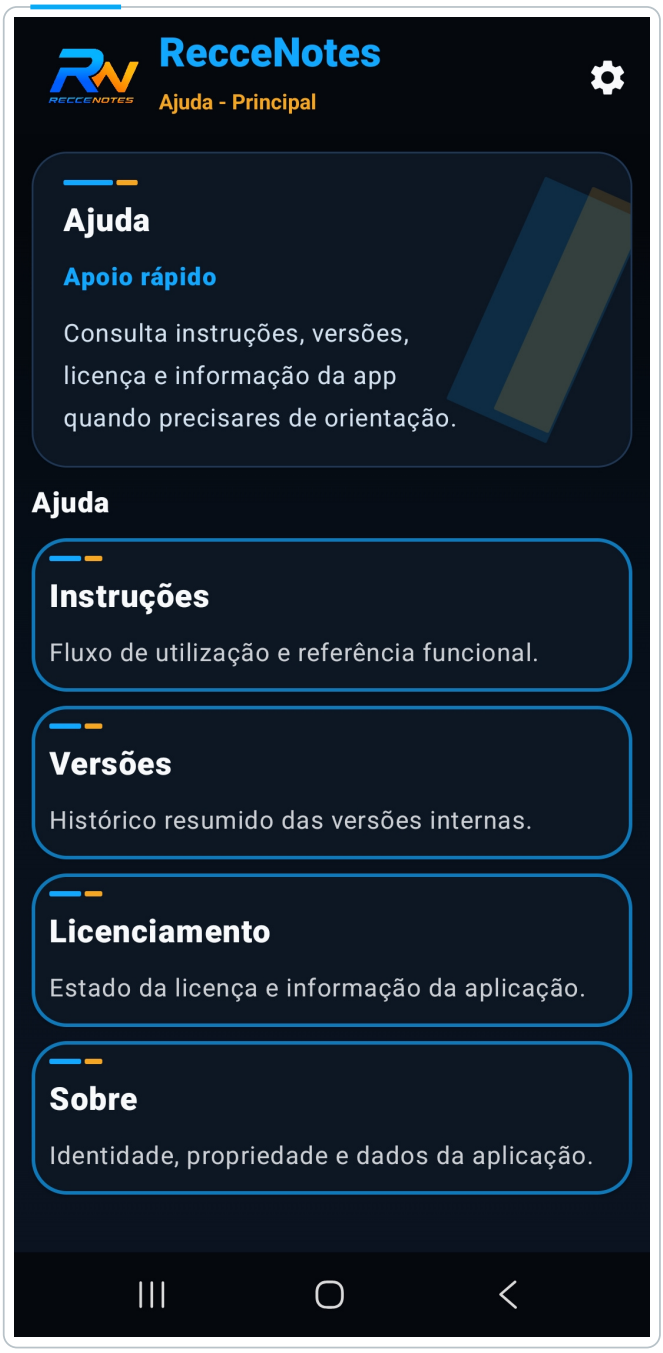

The .profile file carries settings, symbols and quick buttons.

- Import or export profile

Help inside the application

Use the built-in instructions whenever you need to confirm a step.

Help menu

Instructions

Version and licence

Check the application history and the licensing status.

- Version history

- Licence status

B RecceConnect

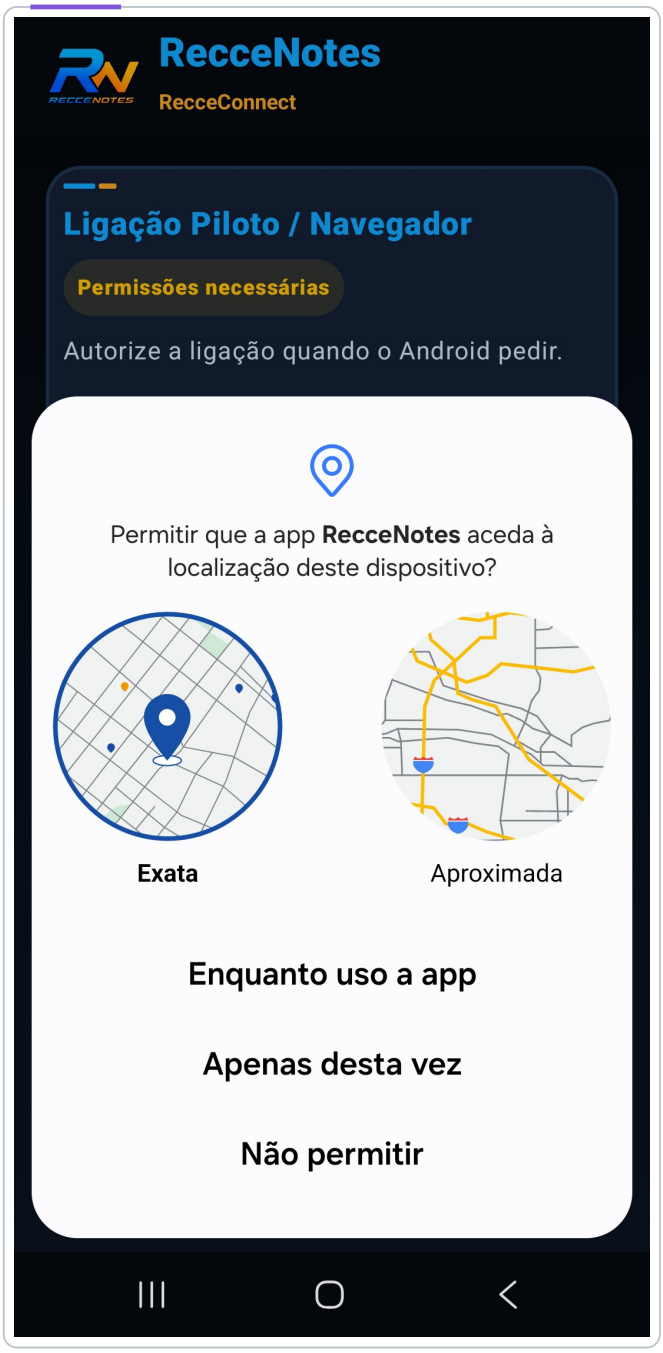

A standalone application for connecting the team and preparing transfers.

- Its own identity and purpose

Authorise the connection

Allow location and nearby devices when Android asks.

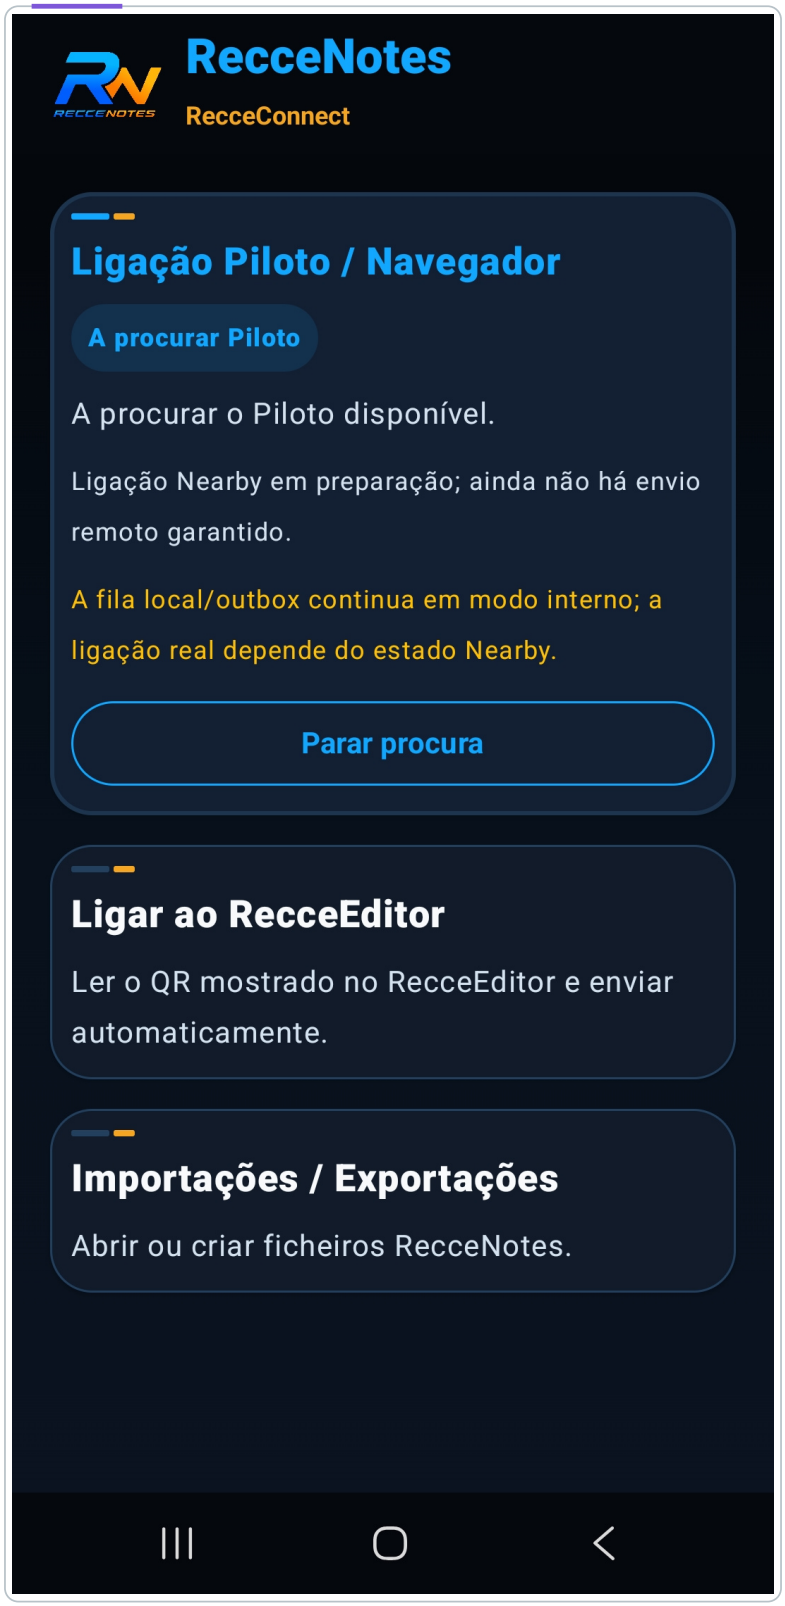

Location

Nearby devices

Find the other device

Start searching for an available Driver nearby.

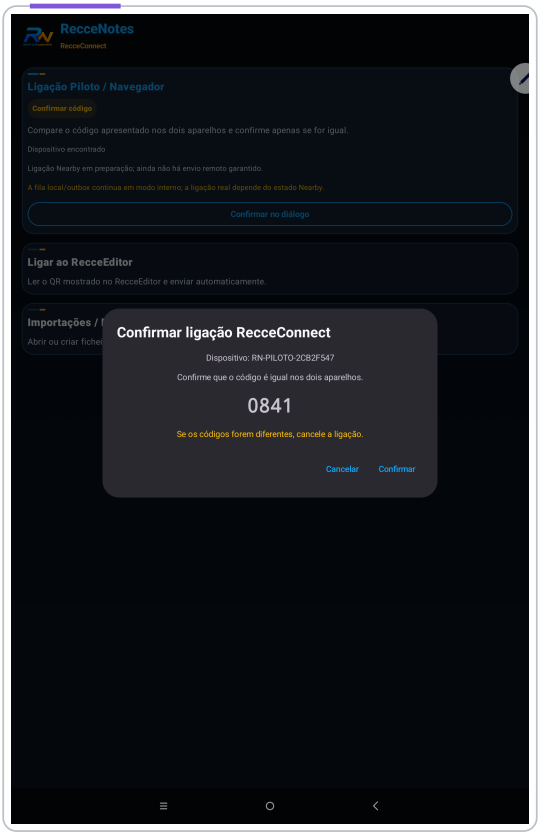

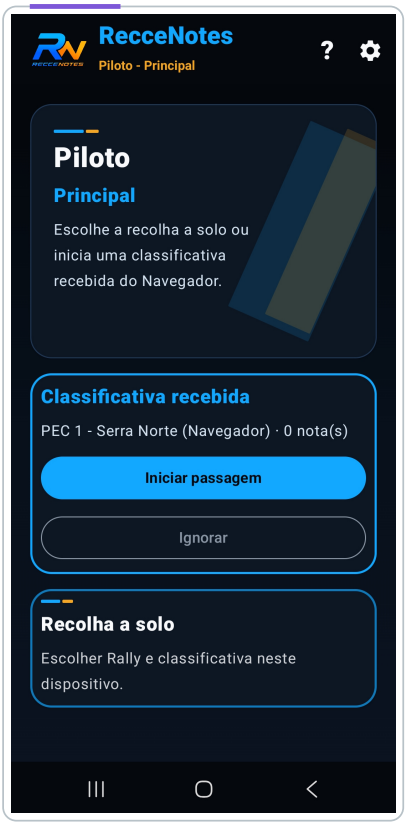

- Local search in progress

Confirm the team

Compare the code on both devices before confirming.

- Phone
- Tablet
- Special stage received

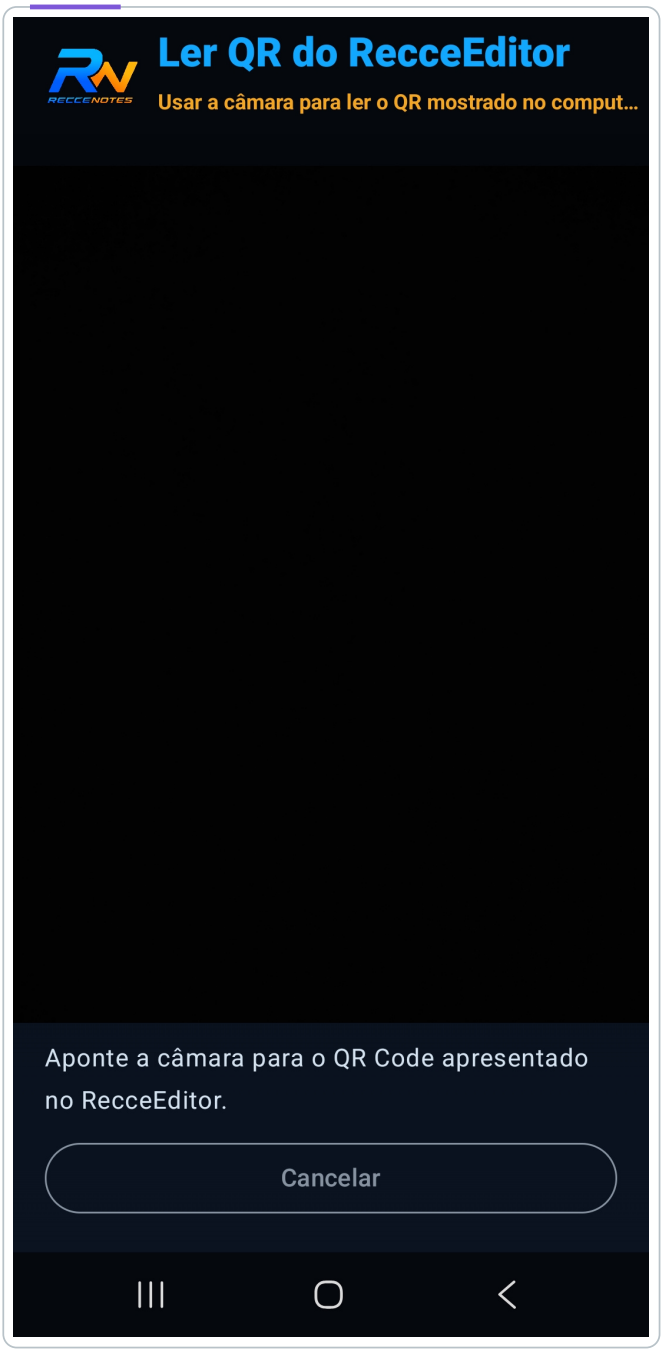

Confirm on both devices before receiving the special stage

Connect to RecceEditor

Allow the camera and scan the QR shown on the computer.

- Camera permission

- Scan the QR

Two distinct connections

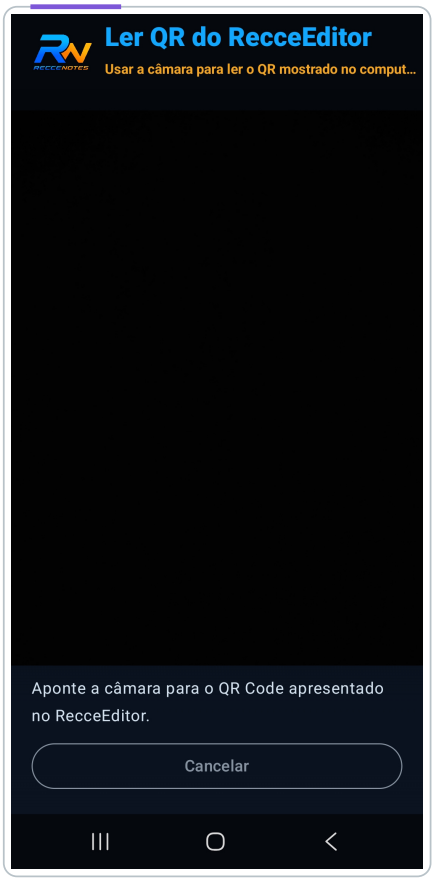

RecceConnect links Driver/Co-driver and prepares the connection to RecceEditor.

- Standalone application

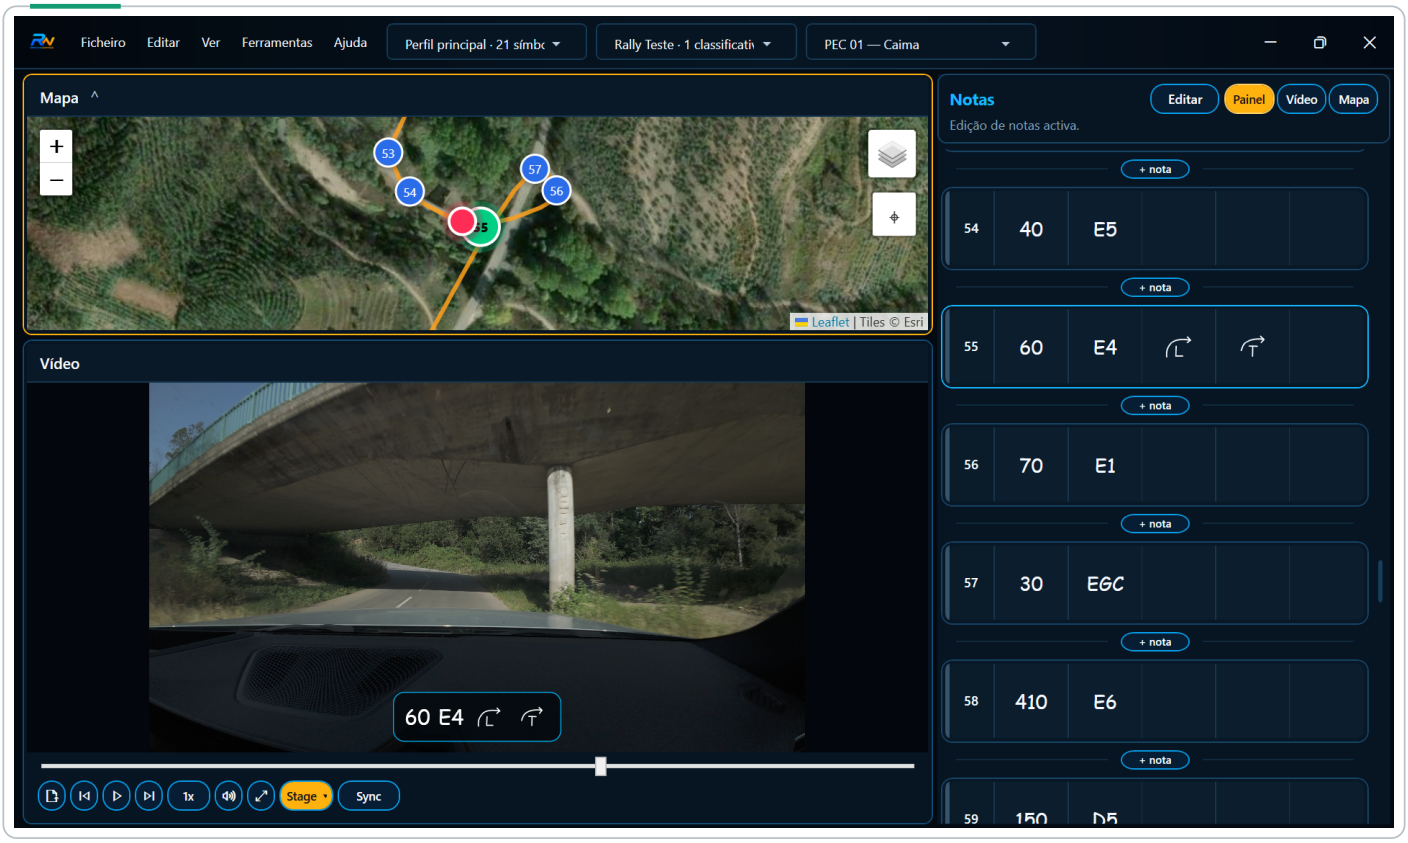

- Nearby connection

- Editor QR

C RecceEditor on Windows

Video, map and notes together for review on the computer.

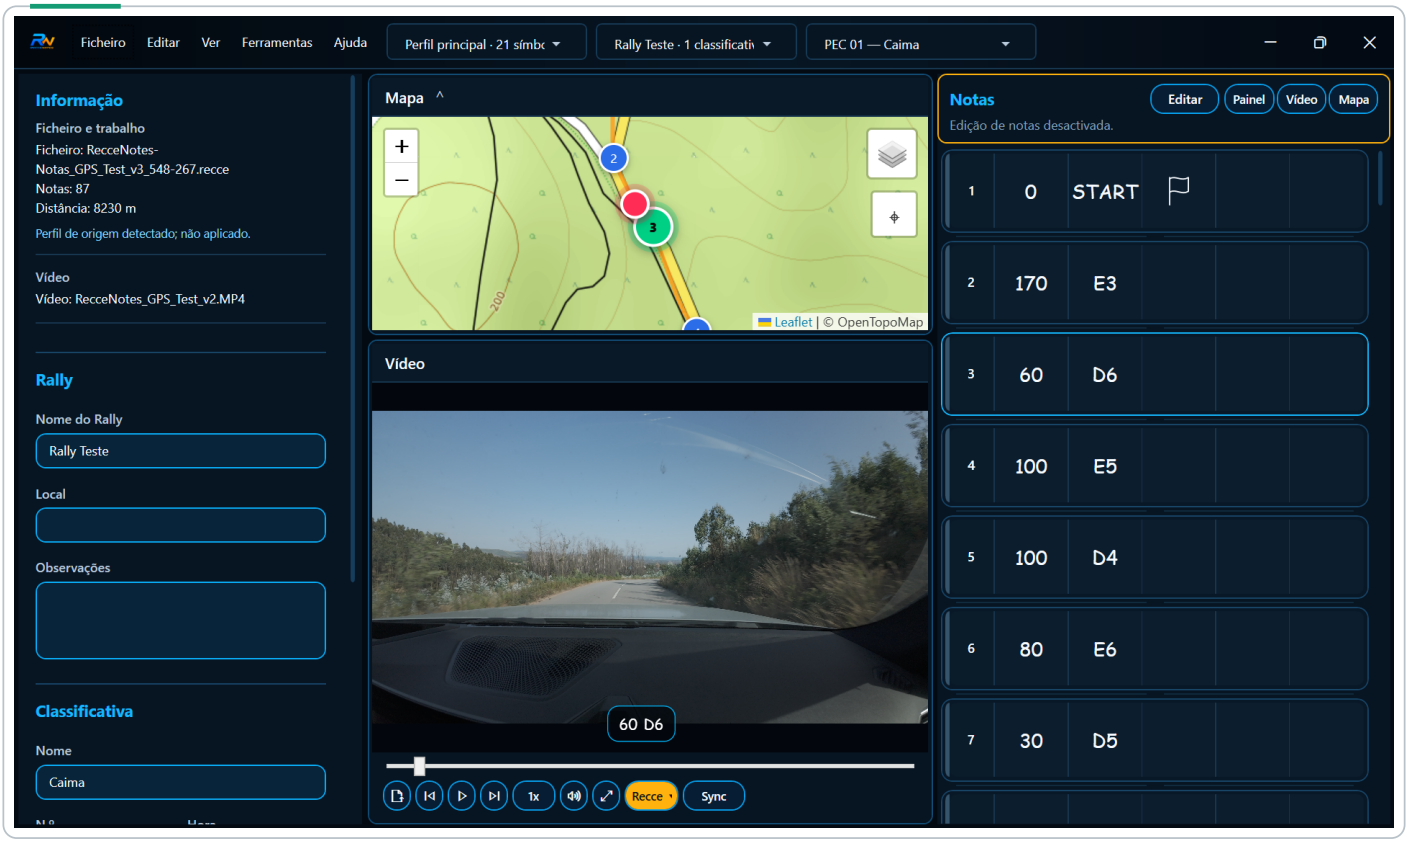

EDI-0120 / 0.97.408

EDI-0120 / 0.97.408 Real RecceEditor interface

The same run, synchronised

The video recorded during the run follows the route and the notes list.

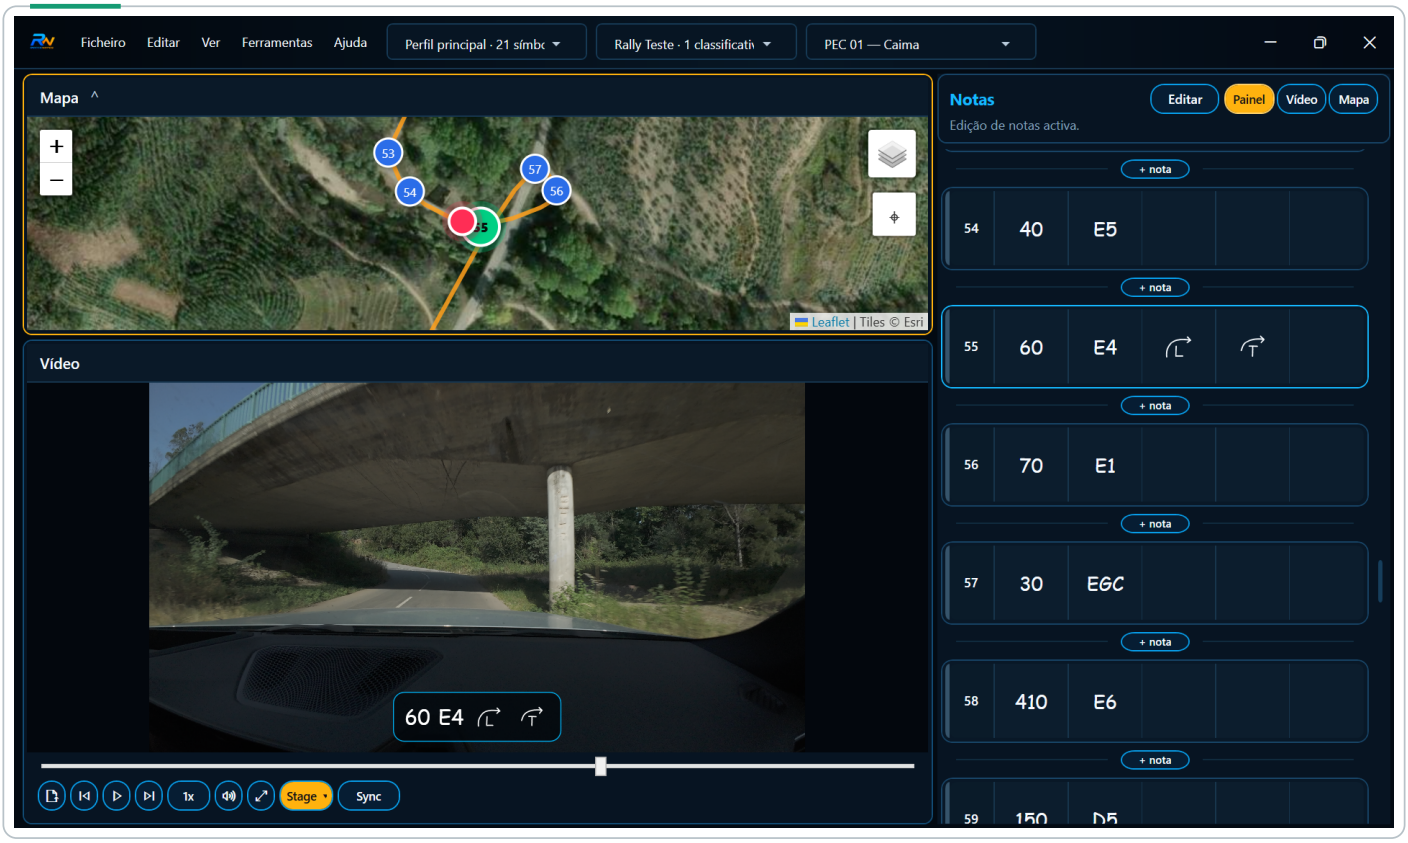

- Map, video and notes

EDI-0120 / 0.97.408

Real RecceEditor interface

Review and edit

Select a note and correct it while keeping the context visible.

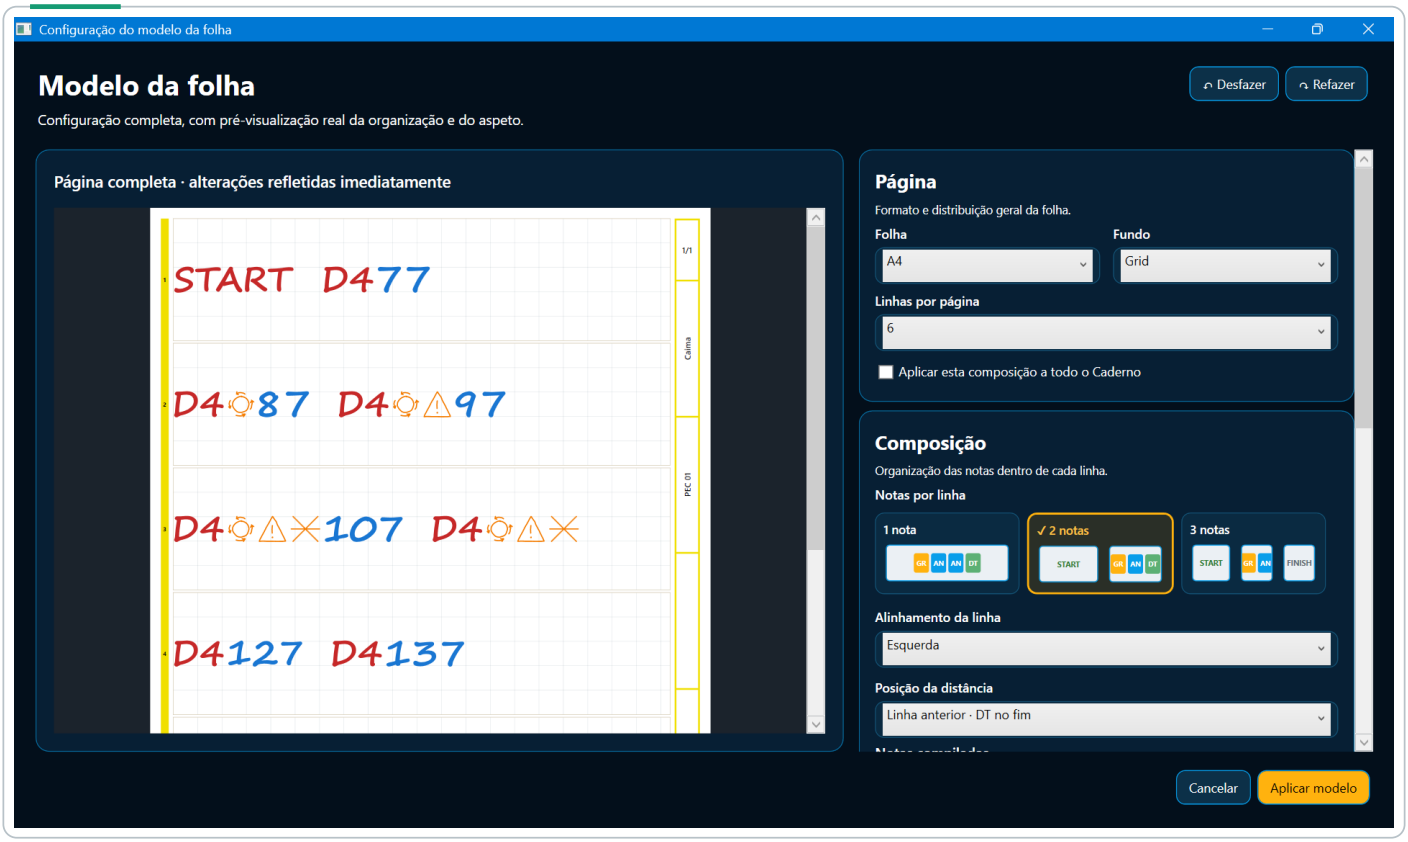

- Contextual editing

EDI-0120 / 0.97.408

Real RecceEditor interface

Configure the page template

Set the format, background, lines, composition and alignment.

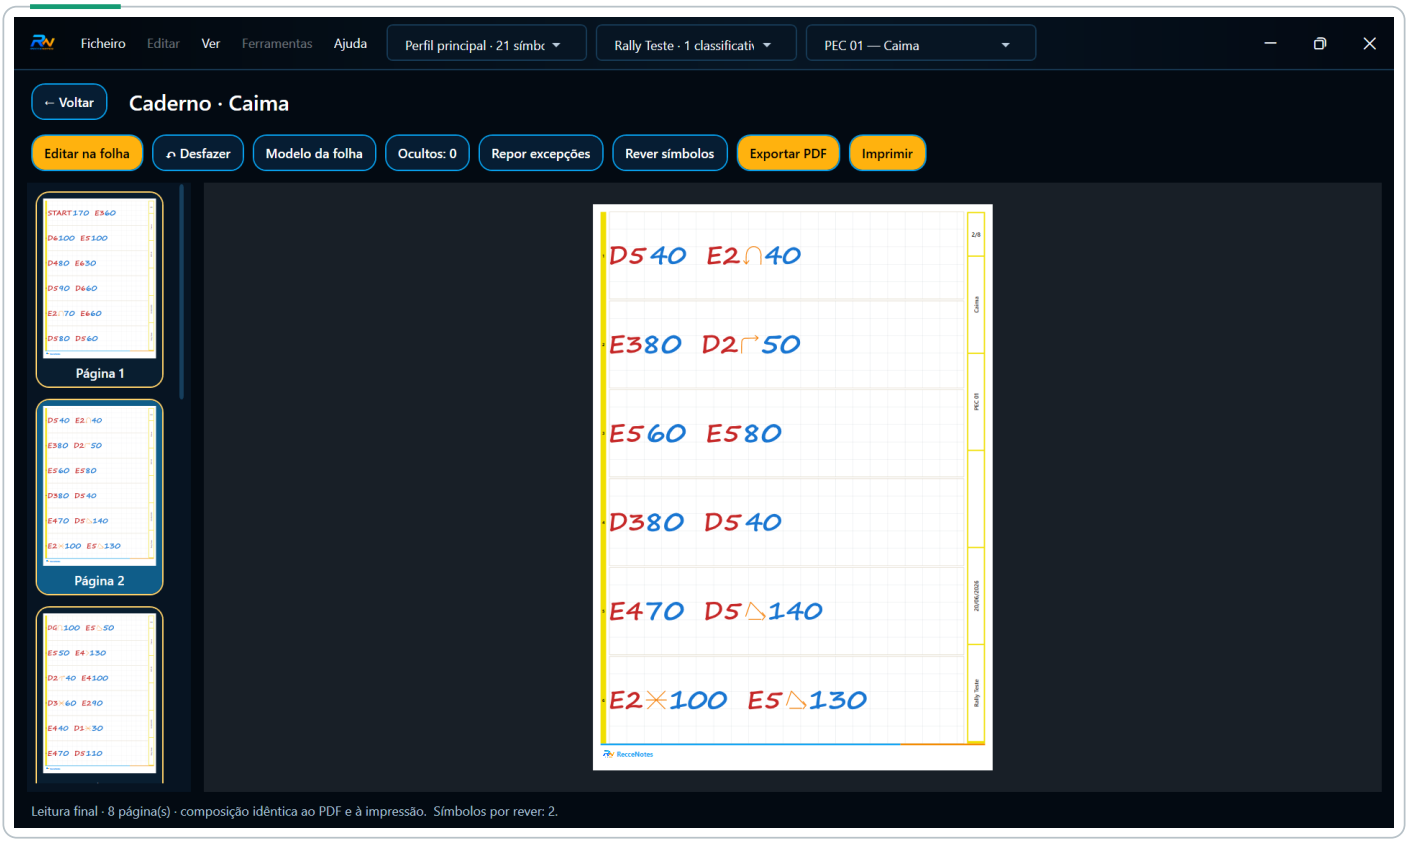

- Template and preview

EDI-0120 / 0.97.408 Real RecceEditor interface

Prepare the Roadbook

Review the sequence and symbols in the final composition.

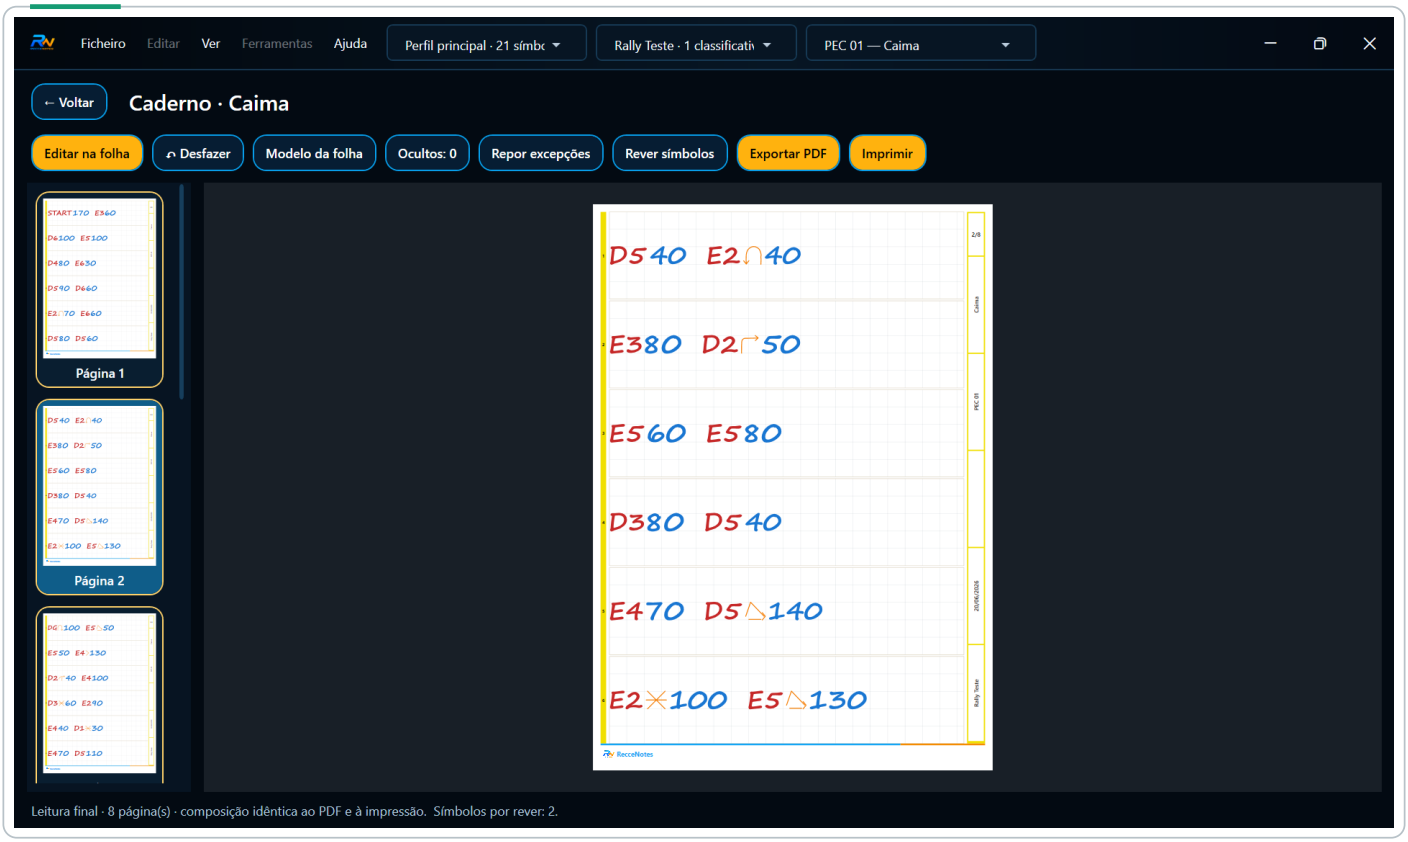

- Composed Roadbook

EDI-0120 / 0.97.408

Real RecceEditor interface

Export PDF and print

Use the validated Roadbook as the basis for PDF or printing.

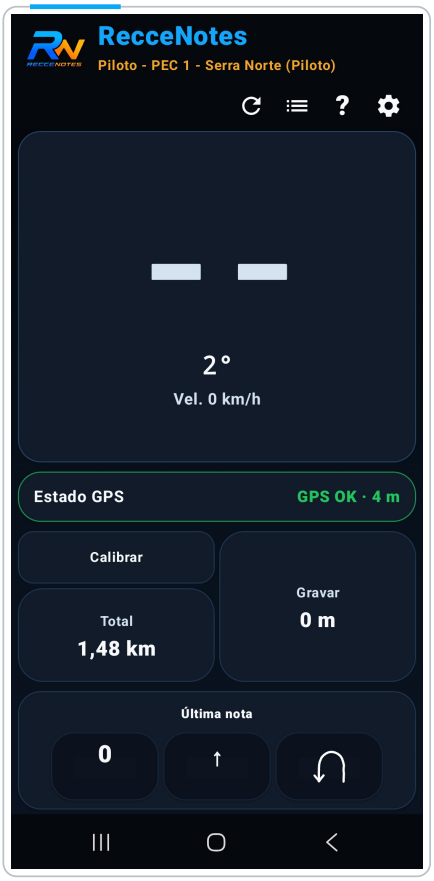

- Visible output controls

EDI-0120 / 0.97.408

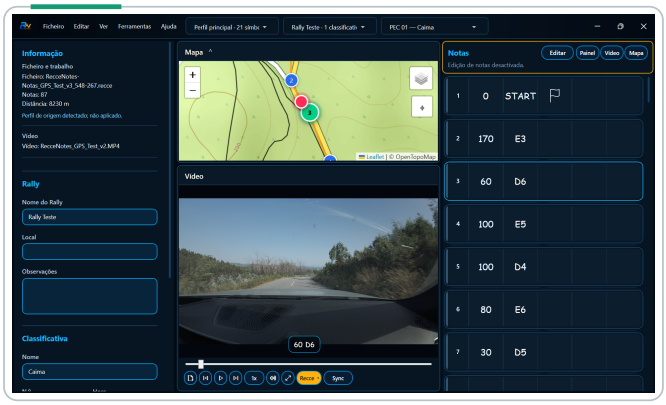

Real RecceEditor interface

D Combined workflow

RecceNotes collects. RecceConnect links. RecceEditor finishes.

1 RecceNotes

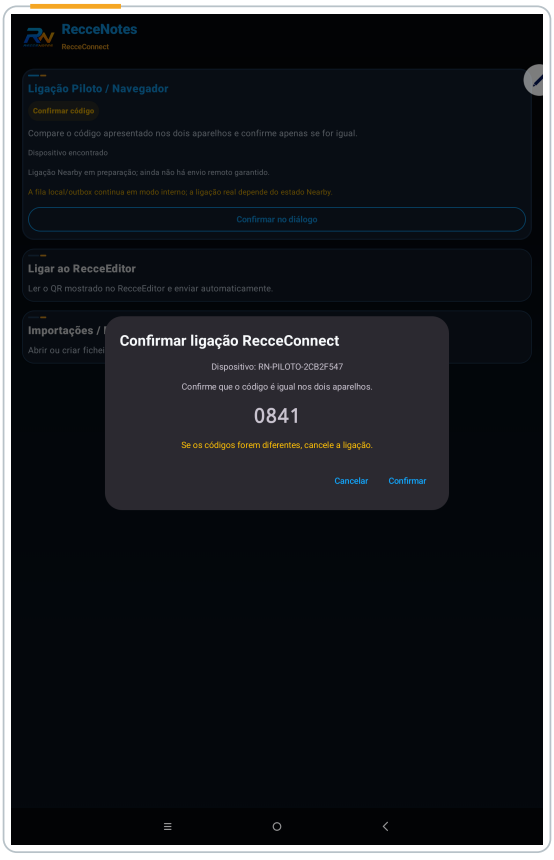

2 RecceConnect

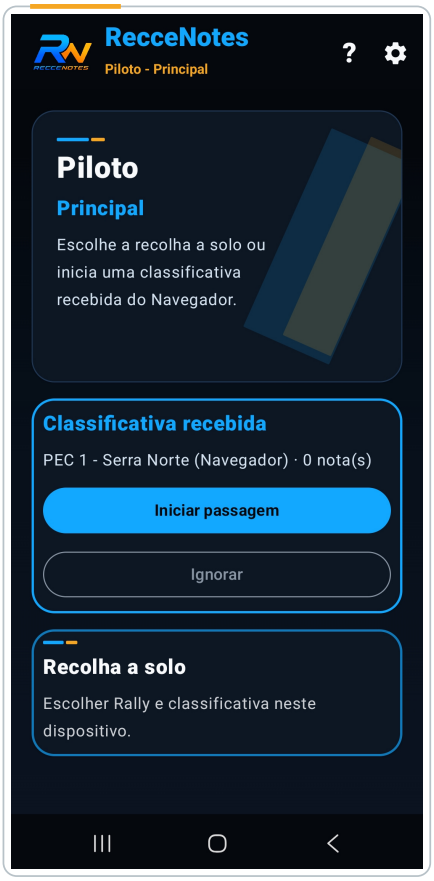

3 RecceEditor

Driver and Co-driver connected

The code confirms the team and the special stage reaches the Driver.

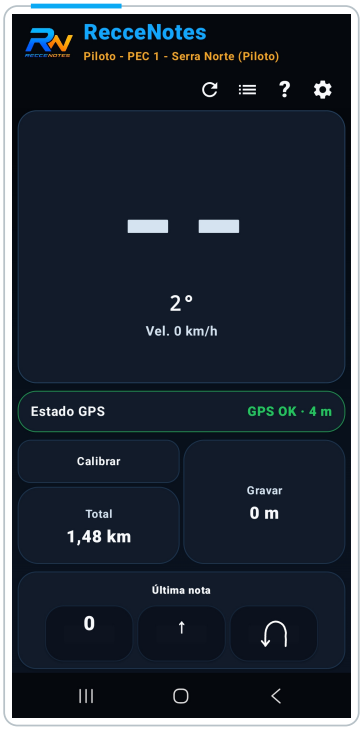

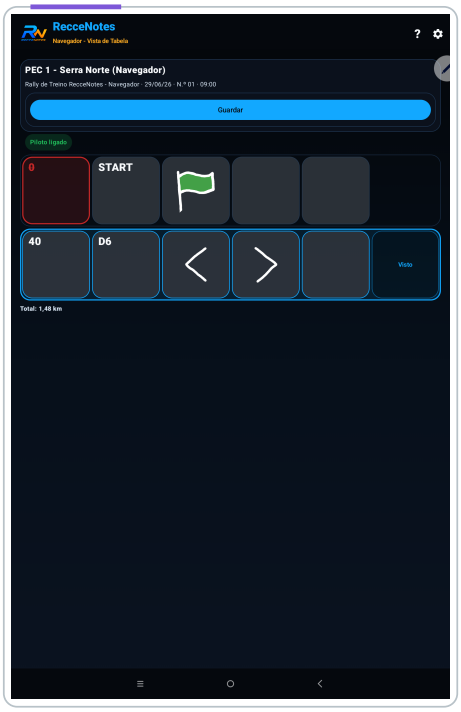

- Confirm
- Compare
- Receive

From the road to Windows

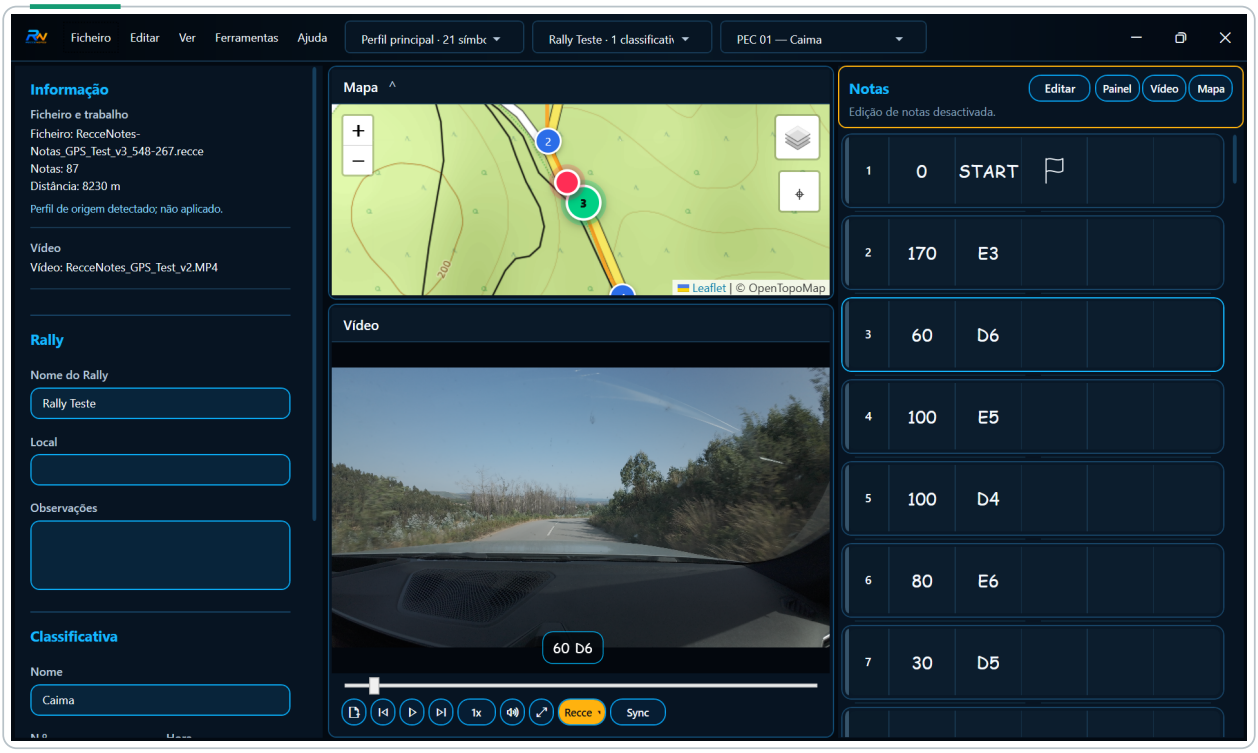

The notes move to the Editor, where video, map and content are reviewed.

Collection

Mobile review

Review in Editor

Before finishing

Confirm every stage and visit the RecceNotes Site for information and downloads.

1 **RecceNotes**
Rally, special stage, profile and symbols

2 **RecceConnect**
Team confirmed and connection prepared

3 **RecceEditor**
Video, map, notes and Roadbook reviewed

4 **Output**
PDF or print from the validated Roadbook

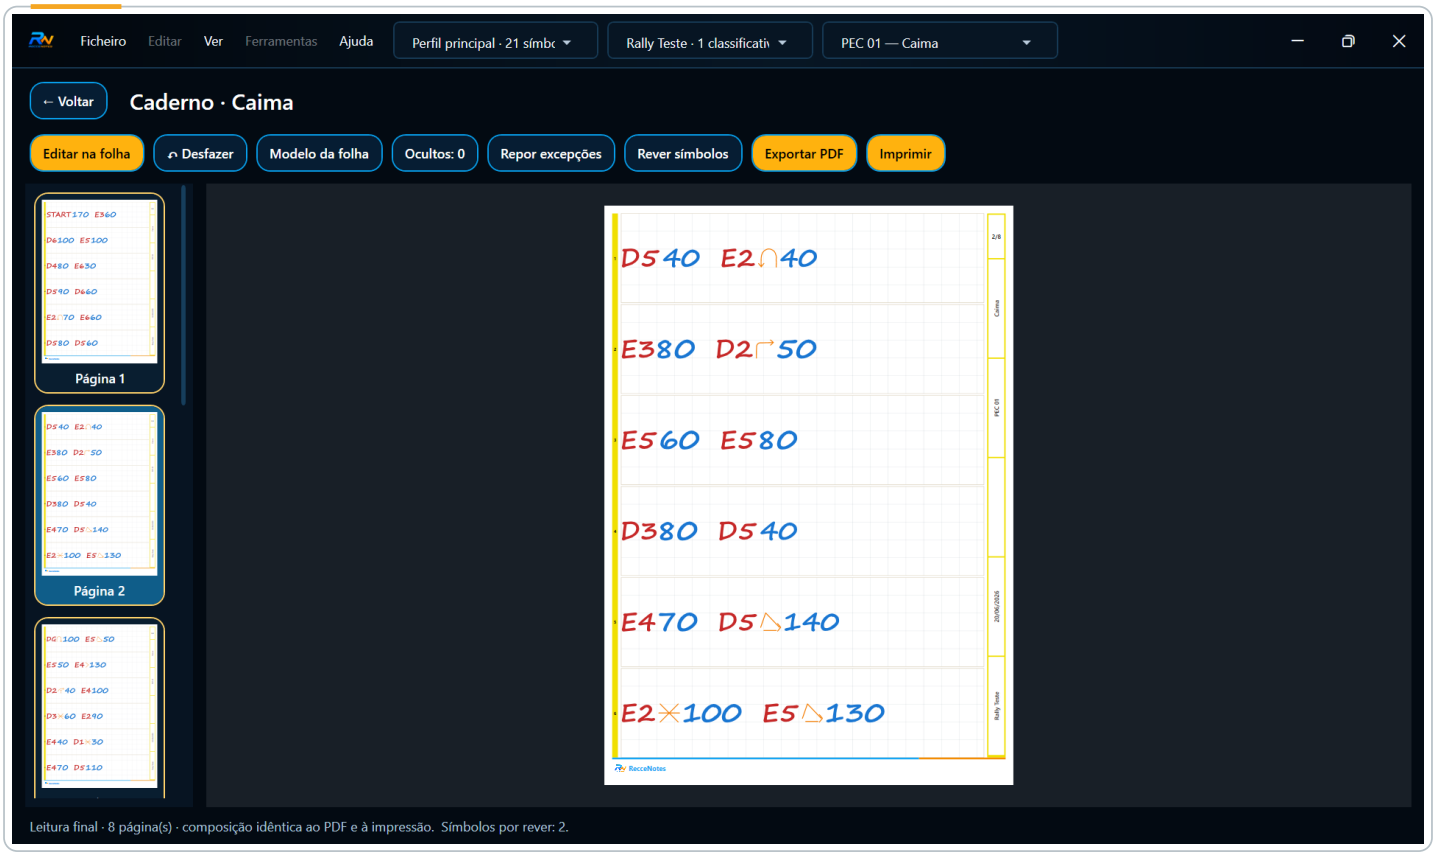

Information and downloads

Visit the RecceNotes Site for information and to confirm the downloads that are actually available.
